Our proposed value-added services to our customers

3PL agents & assistance to MRO providers

At Lamaignere Shipping, we can fulfill and manage all of a vessel's needs both locally and globally and on a short and long-term basis through comprehensive global service agreements. By handling all of a vessel's operations, we can assist our clients in simplifying and streamlining their activities thus reducing the number of companies they have to deal with to complete all their administrative and logistical tasks.
